

August 2013 Monthly Challenge: Take Control of Your Computer!

This month, I will:

- Donate any old or unused computers to a good cause.
- Unsubscribe from shopping email lists and other junk emails.
- Get rid of my screen saver.
- Set my computer to go to sleep after five minutes of inactivity.
- Leave printers and scanners unplugged when I'm not using them.
- Pledge to spend one hour less in front of the computer each day.
- Change my printer settings to double-sided mode.
- Print in draft mode for drafts that aren't final.
- Let my laptop run on battery power whenever possible.
- Make sure my desktop computer is completely shut off each evening.
- Send photos or stories about my efforts to Blessed Earth!
